Over the Kenduskeag Market, at Four Dollars
a year, payable half yearly, in advance. All sub-
scriptions for less than a year to be paid in advance,
and all orders for discontinuance must be accom-
panied by the amount due.

The BANGOR COURIER is published at
the office of the Daily Whig and Courier every
Tuesday morning, at Two Dollars a year in advance.
The price of the paper is Five Cents if not paid
within two months from the time of subscription.

The publishers will not hold themselves re-
sponsible for any error that may occur, beyond the
amount charged for the advertisement.

Mr. Elihu Field, Boston, is agent for this
paper. Advertisements left with us will be im-
mediately forwarded.

UNITED STATES HOTEL, PORTLAND.

THIS large and commodious es-
tablishment, located corner of Con-
gress Elm and Federal streets buy-
ing has been leased by the undersigned
for a term of years will be opened
under their direction on MONDAY Nov. 30, by
the proprietors of the first class, it
is hoped will be fully secured.

It has undergone the most thorough and complete
repairs, having been refitted, painted, newly fur-
nished and arranged with a strict regard to the
comfort and convenience of Families, and single
gentlemen. The central location of this establish-
ment together with its being retired) being in close
proximity to the business streets render it a desir-
able house for those who visit the city for business
or recreation.

S. WYATT & SON,
late of N. S. Hotel, Dover
Oct 1845

PENOBSCOT CHEAP CASH Stove Warehouse.

HEDENSHERR'S
PATENT AIR-TIGHT
PARLOR COAL STOVE.

THIS STOVE was
patented by Mr. F. L.
Hedensherr, of New
York, in 1815 and was
sold by him to a con-
siderable extent in that
city last winter, giving
entire satisfaction to
those who used it.

The subscribers have
the right to send the art-
icle to this city, and
offer it to the public
with the full confi-
dence that for Par-
lor, Chamber, Stores,
Halls, and Offices,
where little or no pipe
is to be used they are
superior in point of
economy, comfort and
convenience, to any
other Stove now in the
market.

The principle on
which the Stove is
constructed will com-
mand it the pub-
lic's attention.

Now let us see what mills, and owners, and
mill rights say in regard to this invaluable im-
provement.

We the undersigned certify that at Albans

Bay on the 2d day of November, 1815 in the vicin-
ity of that place there was ground in Platt's

Portable Grist Mill, fitted up in that place, ten bush-
els of peas and oats, and done the best manner

within 30 minutes, and we further certify that we
believe the said mill capable of performing all the
grinding work done in a grain mill equal to any

done in the State, by one-half of the time.

And we further state, that the said mill ground

ten bushels and a half of corn (fine meal) in an
hour, without being in the least heated.

D. S. PAYNE, Miller

Ralph Ladd,
James Lamson,
A. Hurlbut,
Noble Square

1. The undersigned, certify, that one of Platt's
Portable Grist Mills has been fitted up in Messrs.
White & Co's grist mill at Vergennes, and I will
frankly say to the public that I have fully tried the
mill both on flooring and pryender, and have come
to the full conclusion, that the above mill will com-
pete with any mill in the country both in flooring
and pryender.

ASA HARRINGTON, Miller
Vergennes, April 24, 1846.

The mill above named was in operation in the
Vergennes, last month, a grist mill a number of
days, and so far as we witnessed its performance
it is well suited to the use of the public, that it
will be sold at great bargains as can be
had in the city.

ALBERT NOYES & CO.,
No 6 CENTRAL STREET., BANGOR

ALSO
the following Parlor Stoves
FOUR COLUMN Air tight Coal Stove
Sheet Iron Air tight, Wood Stove
Cast Top and Bottom A T Wood Stove
Pyramid Coal Stove
Cylindrical Stove for Wood
Large Parlor Stove, for Wood
Get Parlor Stove, for Wood, and
a great variety of COOKING STOVES, all
of which will be sold at great bargains as can be
had in the city.

L. B. CHAPIN
JOSEPH BENSON
BANGOR, June 11, 1846.

Copartnership Formed.
MR. CYRUS LORD, having sold out to Joseph
Benson his interest in the late firm of Lord
& Chapin the undersigned, on the 4th instant
formed a Copartnership under the firm of

CHAPIN & BENSON,
and will conduct the business of Bakers, and Con-
fectioners in their various branches at the old stand
on Wall street, recently occupied by Lord &
Chapin and intend by strict attention to their busi-
ness and proftess in accumulating their cap-
ital to merit a liberal share of patronage.

B. T. CHAPIN
JOSEPH BENSON
BANGOR, June 11, 1846.

chased, for which the highest price in Cash will be
New York, July 24, 1846.

IMPORTANT NOTICE.

Hildreth's Valuable Horse Liniment.

WARRIOR'S LINIMENT is the most valuable

liniment ever offered to the public for

Sprains, Windgalls, Swellings, Swellings of the Joints,
Muscles and Callosities of long standing, the Swell-
ings, Fresh Wounds, Galls, &c. &c.

The truly valuable Liniment has been in use for
the last 15 years, and in no instance has it failed to
give satisfaction to the purchaser; it is cheaper than
any other article as it requires but a small quantity
to complete a cure. Also will answer equally well
for Neck or Horse Galls.

Prepared only by the Inventor and Proprietor,

JAMES KIDDER, Jr., East Boston. For sale
by G. W. LADD, and POTTER & BROWN, East

BOSTON, July 21, 1846.

GEORGE D. B. Sargent,

Opinions of the Press.

[From the Bangor Whig.]

We yesterday witnessed the operation of the mill with the above

name, at the steam factory of the Messrs. Doty,

City. It was employed in grinding coarse meal for

the woods, and turned it out in immense quantities, at

the rate of between fifty and sixty bushels an hour.

He thinks the mill has ground him several bushels of rice

better than he ever had ground, and is at present a

most excellent mill.

The cost of a mill is one hundred and fifty dollars.

From what we saw of the operations of the mill—

from the testimony of several competent judges, and from the

quality of the several kinds of meal ground by it, we feel

fully satisfied to recommend it as a good machine, and of

PLATT'S PATENT GRIST MILL.

—000—

To the Citizens of the State of Maine

THE undersigned have the pleasure of inform-

ing our friends, millwrights, and every

one in the State with his water, steam or horse

power that the new Mill will be manufactured

at F. Muzzy & Co's Steam Locomotive Works, at

Bangor. The great economy in erecting and

putting one of these mills in operation where there

is sufficient power to carry a shingle machine, or

one saw, wall, or examination convince every one

of the great public convenience economy and util-

ity of this invaluable improvement in the art of

grinding all kinds of grain into the best kinds of

meal and flour. The cost of the mill is but \$100

all ready to run, and it can be put up in a simple

machine shop, carding, sawing or grist

mill, where there is a pulley or drum, to which the

water, steam, or horse power

can be attached, and put in operation in two hours.

This improvement is now offered for sale on its

merit, and we are unable to decide, although

we have seen the test for this State, Messrs. Thomas

& Kidd, are now in this city, and we learn are about get-

ting up a company to engage in the manufacture of these

mill.

[From the Bangor Mercury, Sept 3 1846]

PLATT'S PATENT GRIST MILL. The patent for this mill

was granted to Messrs. Thomas & Kidd, of New

England, Va. Col. Thomas, one of the partners in the

new mill, is now in this city, and we learn are about get-

ting up a company to engage in the manufacture of these

mill.

John S. Hayward, Editor.

FRIDAY, NOVEMBER 14, 1846.

We are reminded by the recent flood of Whig victories, in the several great States where elections have recently been held, of the shock anxiety and bitter taunt of the Bangor Democrat in September last, that the Whigs had nothing to hope for—they were in so small a minority and their political capital was so entirely exhausted, that nothing in the ordinary course of things could enable them to make progress against the “democratic” party. Since two months have passed, and in that time every State which has had an opportunity to express its opinion of the administration of President Polk, have decided against it, with the exception, perhaps, of Michigan, and that probably more in behalf of Gen. Cass prospective than in approval of Mr. Polk’s course—but about sixty days have passed, since the Democrat boasted and taunted, and where now the strength of the local party? Where the weakness of the Whig party? The strength of the contemptuous boaster has departed. The glorious freedom loving Whig party so lately taunted with its weakness, has become victorious.

These changes will prove a blessing to the people of all parties. Locofocoism was on a rapid rise down hill, in principle and in the character of its chosen men. It dared, in the confidence of its own strength, to do anything, but the people have rebuked them and resolved to save the country.

Temperance Movements.

We published yesterday and continue to day the public call of a Committee of the several Temperance Associations in the city, for a public meeting at Market Hall on Saturday [tomorrow] evening, at 7 o’clock, to take into consideration the morals of the city, as connected with the use and traffic in intoxicating drinks, and to devise measures for the advancement of the great Temperance Reform.

This call is worthy the attention of all our citizens. This movement originated in the solid conviction that the moral sense of the community should be renewedly appealed to for the purpose of sustaining the virtue of temperance in our city. Facts are daily coming to light, showing that the number of moderate drinkers in our community is large, and probably increasing, that our young men are coming upon the stage of active life indifferent as to the subject of temperance, and disposed to make use of wine as a beverage.

There has been, at times, among the friends of temperance in this city, a spirit of intolerance because all could not see eye to eye. All probably see the evil of this, and no one will be likely to run again into it. The time, then, is auspicious for every friend of the virtue of temperance, renewedly to apply himself to the work of effecting a more thorough reform than has yet been left here.

Several able speakers have been engaged to address the meeting and a choir will be in attendance to furnish music. The meeting, therefore, can hardly fail of being highly interesting as well as effective. It is desirable, we may specially suggest, that our people, men and women turn out in large numbers at the first meeting which will be on Saturday evening next.

The editor of the People’s Press, requests those persons who read his exchanges, to do so with as few words as possible. There are those who can quietly read all the papers about a printing office, without in the least disturbing any body. There are others, who, in reading, must give vent to every thought, and perhaps grossly labor to interest every other person in the room, no matter how deeply engaged in reading or other occupation, and although they may have read the paper spoken of, and mention the fact, still they must hear an everlasting flood of comment, and have familiar paragraphs read to them, and their attention called to this and that and the other matter, which they had previously disposed of. Such men are most in tolerable bore, and we wonder not that the editor of the Press wishes them to read with “as few words as possible.” A newspaper, above every thing else, a man wishes to read for himself, and the man who has a lot of fresh papers around him, and cannot keep his mouth shut, should never show himself in a company of readers.

There is another class—right down useful class of readers—who delight occasionally to look over an editor’s exchanges. They can quietly slip over each paper, extract the honey, and replace it, without scarcely being observed. They have the happy faculty, too, of dropping an item of intelligence, or suggesting an idea, or directing investigation, without disturbance or interruption. Such men are the delight of all editors, and precious on account of their rarity. Their words are few. They have an active sympathy with the man whose mind is occupied, and know at a glance whether their presence or remark will help or hinder, and when they cannot help, they have too much good sense and politeness to cause the slightest disturbance. We hope the editor of the Press is often visited with the last named class.

A Home missionary, laboring in Wisconsin, on account of his operations, says: “In the course of my tour I found some disciples of Christ who had not even a minister of the gospel for two years, and whose neighbor hood which scarcely since their settlement in the territory have enjoyed the privilege.”

This is no new fact in the religious history of Wisconsin and the West. And yet it may well start an enquiry whether something cannot be done for just such neighborhoods, of which these are hundreds, if not thousands, in the valley of the Mississippi. Wisconsin has a population of 260,000 souls, scattered over an area of 93,000 square miles, and while the number of inhabitants is rapidly increasing, there is nothing like a proportionate increase of ministers. This is the case in every new country, and until the population attains to a certain density, there will be a great lack of living preachers.

Mr. Du Bois, of Philadelphia, just returned from Europe, showed a gentleman, the other day, a letter in the hand writing, and with the signature of Oliver Cromwell, written February the 6th, 1750. The parchment is beautiful, and the signature bold and gallantly.

We are reminded by the recent flood of Whig victories, in the several great States where elections have recently been held, of the shock anxiety and bitter taunt of the Bangor Democrat in September last, that the Whigs had nothing to hope for—they were in so small a minority and their political capital was so entirely exhausted, that nothing in the ordinary course of things could enable them to make progress against the “democratic” party. Since two months have passed, and in that time every State which has had an opportunity to express its opinion of the administration of President Polk, have decided against it, with the exception, perhaps, of Michigan, and that probably more in behalf of Gen. Cass prospective than in approval of Mr. Polk’s course—but about sixty days have passed, since the Democrat boasted and taunted, and where now the strength of the local party? This call is worthy the attention of all our citizens. This movement originated in the solid conviction that the moral sense of the community should be renewedly appealed to for the purpose of sustaining the virtue of temperance in our city. Facts are daily coming to light, showing that the number of moderate drinkers in our community is large, and probably increasing, that our young men are coming upon the stage of active life indifferent as to the subject of temperance, and disposed to make use of wine as a beverage.

Temperance Movements.

We published yesterday and continue to day the public call of a Committee of the several Temperance Associations in the city, for a public meeting at Market Hall on Saturday [tomorrow] evening, at 7 o’clock, to take into consideration the morals of the city, as connected with the use and traffic in intoxicating drinks, and to devise measures for the advancement of the great Temperance Reform.

Another New Thing in Penobscot.

The Trojan Pioneer Cooking Stove.

The subscribers after great expenditures have succeeded in bringing this admirable Cooking Apparatus to perfection, and are now prepared to furnish the public with the very best article ever invented. This Stove has had three of the highest premiums awarded it that were ever awarded to a Cooking Stove at the Fair of the American Institute in the City of Philadelphia, and one of the first premiums at the great State Fair at Poughkeepsie, N. Y. 1841, where was the greatest competition ever known; the first premium was awarded to it and to it at the Exhibition and Fair in Boston a Silver Medal was awarded to it. This celebrated Stove stands unrivaled in Boston New York and other places where it is an extensive use, 1800 of them were retailed by one establishment in Boston the past year, for all cooking and heating purposes it can super se any other Cooking Apparatus that can be produced. The oven is extremely large being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time. In addition to the advantages it has over other Stoves Stoves for baking, baking, washing, frying, heating griddle, &c., it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam from all the cooking being carried off effectually. This Stove being composed of two parts can be disengaged and used to make two perfect Stoves which of course are of greater value in winter weather as the sun is a stove which makes the house warm may be used in the setting or dining room—and the other part in the back kitchen, Bedding or Washroom. In the fall of the year the two parts may be connected together as is represented above. In fact it is impossible to tell one half of the story about this Stove, and all who are interested in getting a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves Ranges, Hot Air Furnaces and Fixtures, Tin Ware Sheet Lead, Pump Lead Pipe, Fire Places, &c.

CONSUMPTION CURED!

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral or Pulmonary diseases, still stands unrivaled and unequalled in the most elegant, agreeable and effectual cure of these formidable complaints, now known to the civilized world.

Three years of trial in the United States, during which time it has been distributed from Boston to Fort Meade, has only served to establish its peerless merit in all parts of the country.

NOT RELIABLE REMEDY

In the worst cases of Pulmonary disease and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be used.

SPLITTING OF BLOOD: This fatal symptom of approaching Consumption is especially checked and prevented by the use of Buchan's Hungarian Balsam, which heals & cures all membranous, rheumatic & the pectoral tubercles, & all organs, the lungs &c. are fully restored.

REMEMBER THIS: Starting of Blood-vessels arises from a tendency to tubercular disease, and if not checked, at this outset, will sooner or later determine death. A person who takes this Remedy will never bleed again, unless proper curative is immediately applied.

PAIN IN THE SIDE:

The distressing symptom of Consumption arises from inflammation of the Liver, & the Membranes covering the Liver, & from the Balsam affords a safe passage. In either case it is a very dangerous indication of disease. It prevents full and free breathing and weakens the natural strength of the system. The cause of this symptom is easily detected, & can only be removed by the Great English Remedy, discovered by Dr. Buchan which entirely cures it.

THE LIVER: The heart, liver, & lung was the organ which affected old people, & lived in a low state of health being deeply affected by the Hungarian Balsam.

It warms, moistens and stimulates the whole system, removes all mortified morbus, & all poisons, purifies and animates the blood, improves the secretory power of the Liver, Spleen & other large glands, and the digestive organs, adds impetus new life to the wands emaciated eyes, & gives new energy to the brain. Difficulties of Breathing, Phlegm, Cough, a slimy expectoration, with all other symptoms caused by an effusion of the air-tubes leading from the throat to the lungs, are directly & rapidly cured by the use of the admirable remedy invented.

TUBERCLES ON THE LUNG: The harsh, dry, & hoarse cough, which affects old people, & lived in a low state of health being deeply affected by the Hungarian Balsam.

This is a very painful, wearing and impulsive complaint, and always has a powerful tendency to consume and soften the Lung, and thereby to induce the worst form of Pulmonary disease. It is cured in time, ye affected & employ this valuable remedy.

PERMANENT CURES. These excellent Balsams will be found a certain and safe cure of Indigestion or Dyspepsia, & loss of Appetite, General Debility, fainting & sinking of the Stomach, Loss of Senses, Convalescence, Determination of Head to the Head, Pain in the Limbs and Side, Diarrhea, Weakness, Dizziness, Cutaneous Eruptions on the face and neck, fever, night sweats, nervous and sick headache, Arousal of Stomach, bilious affect nine piles, constipation, and in all diseases caused by impurity of the blood & the debility of the system or the unhealthy state of the stomach and bowels.

They are also very efficacious in restoring the tone of the membranes, broken down by sedentary emulations and counterfeited other pills coated them, and through the base and silly pretension to a patient are distributing the about the country, deceiving the public by dispensing of their untruth through the already acquired reputation and popularity of the genuine Buchan's Sugar-coated Pills. In order to get the true and original sugar-coated pills, see what the engraved signature (G W Ladd) is on the label of each box, and buy only of advertised agents.

NO EXPECTATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs.

The Cough, which is so distressing, is simply the result of a desire to expectorate, & as long as foul matter exists in the air passage, it will continue to irritate the membrane and provoke a cough.

Coughing is an attempt to throw off this matter, and expectorants have great relief.

Inability to expectorate in the latter stages of Consumption is the cause of death.

HUNGARIAN BALSAM is a great Expectorant— It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin, watery fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, & its expectorant quality alone is considered.

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam. This painful and destructive affection which results almost every where, yields to the all-powerful influence of this great remedy, as readily as any other form of Pectoral disease.

CONSUMPTION! Consumption has been graphically described as "Shrill King of one's self."

The Hungarian Balsam, by its eansing, warming,

softening and animating power, produces not shrinking but expansion!

Before its delightful influence all chills, fever, night sweats, asthenes, blisters of the nails & a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dew of night before the glorious morning sun! This is no delusion, but demonstrable fact, sustained by incontestable proof, from all over the country.

BE WISE TO DAY! Delay may cause of Consumption, and even death, Death, after all ordinary treatment, is the Hungarian Balsam, a great ANTIPODE, as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles, one dollar per bottle.

By Special Appointment—David F. Bradley,

Boston, Mass., Sole Agent for the United States and British American Provinces.

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure! That predisposition which exposes the human frame to the infection and varieties of every class of disorders, presents directly or indirectly, from a morbid state of the system caused by IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS. The originator of the only true and genuine Sugar-coated Pills, most respectfully called the enlightened public, that this new and elegant preparation can be obtained only from verified Agents and at the proprietor's establishment No 32 Broadway, New York—Price 25 cents a single box 5 boxes for one dollar.

G. W. LADD Agent for Hager.

Among the numerous remedies which stand reliable, there is an ancient name, we none perhaps which have acquired so great celebrity, and deserve no less than this invaluable article—They have gained their high reputation, by the c. good work. Those who once try them, always use them again. They are grateful to the stomach, & they improve the functions of secretion, nutrition and circulation. They restore digestion and appetite, and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation, & the experience of thousands attest the truth of this. After using them for a short time the hitherto writhed invalid finds that all disagreeable and unhealthy humors have forsaken his system. His digestion performs their proper functions, he recovers his wonted purity, the oppressive sense of weakness and pain departs, and his body becomes enlivened with renewed strength and vigor—while the mind resumes its original grandeur and clearness. Such are the products produced by Halsey's Sugar-coated Pills, the mildest, yet most effectual preservative of the class in use.

In BILL JOES complaints, Convulsions, Indigestion, Dyspepsia, and all other disorders of the stomach, they produce the most happy results for Sores, boils, ulcers, rheumatism, Erysipelas, Eructations of the Skin, Scrophularian complaints and many others, which have been highly celebrated. Hundreds of certificates have been received from individuals who after having taken them for a few weeks, according to the directions which accompany the box, were cured of the most afflicting cases of scrofulous affections. They give Good Blood for Bad. Bottles of the boasted Sarsaparilla, contain less effectual, than a single box of these Pills.

DR. LADD'S SUGAR COATED PILLS

Never an single instance has failed to cure that worst of all diseases. Certificates from the most respectable people of Boston, can be seen at his office.

VERY REMARKABLE CASES!

John Bruce of Providence had entirely lost the sight of one eye, and nearly so the other, from the inflammation, was entirely cured and his eyes perfectly restored by a steady use of Lorraine's Pills for one month. The certificate is in the hands of the medical Agent, signed by three respectable witnesses.

Mr. J. Greenway has been entirely cured of a very large sore on his leg, by the use of only two boxes of Lorraine's Pills.

DR. LADD'S SUGAR COATED PILLS

She was pained at Washington street, Boston, saying that she is blind. The lady that was so weak and sick and given over to die, and was cured even to admiration by Lorraine's Pills in a month, that when she goes to church, or to walk in the street she is perfectly mounted.

DR. LADD'S SUGAR COATED PILLS
